PROJECTS

Student Management System

ITvedant Educational Institute

Achievements/Tasks

- I have developed a web-centric Student Management System that empowers users to input, modify, and remove students records. This system optimally stores comprehensive data, including archival records, within a MySQL database infrastructure.

Portfolio

ITvedant Educational Institute

Achievements/Tasks

- The website serves as an informative platform, meticulously crafted to facilitate intuitive information retrieval and tailored viewing experiences attuned to the distinct requirements of individual users. Furthermore, users are afforded the convenience of seamless owner interaction via the integrated website communication channels.

Bus Reservation System

ITvedant Educational Institute

Achievements/Tasks

- I have engineered a Web-based Book Store Management application, which empowers users to seamlessly execute functions such as addition, deletion, updating and issuance of books from an allocated collection. This application streamlines the intricate task of overseeing the book inventory within the store.
